

## **THE LIONEL CROCKETT MEMORIAL FUND**

The Lionel Crockett Memorial Fund was set up by Genny Crockett in memory of her father. Lionel, the founder of Peta (UK) Ltd, was an innovator and entrepreneur who designed the Easi-Grip ranges of scissors, kitchen and garden tools. These tools were developed in consultation with Occupational and Horticultural Therapists to increase independence and improve quality of life for those with grip difficulties.

The purpose of the fund is to assist Occupational and Horticultural Therapists to increase the opportunities for clients to benefit from Easi-Grip® products either through career development or involvement in a special interest group.

For 2004, the inaugural year, the value of the fund is set at £1,200. 50% has been committed to paediatrics and 50% to horticultural therapy.
