

DESCRIPTION

Developed by Bath Institute of Medical Engineering (BIME) to allow those with only one functional hand to grip papers or workbook to a desk whilst reading, writing or drawing.

HOW TO USE

1. Push down spring slider and put clamp in position on edge of desk or table (max thickness 25mm).

2. Push down on the silver label. Remember - The more you push the more it grips!

3. Push down spring slider and remove clamp. It takes the same amount of effort to release as it does to secure.

KEY FEATURES

- Simple spring mechanism requires minimum effort to secure paper/books to desk or sloping writing board
- Removes frustration and assists user to write or draw with confidence and accuracy
- Light-weight, easily portable

RECOMMENDED FOR

		
Weak Grip	Poor Hand Control	One Handed
